DILERA TOPALOĞLU

Dilera Topaloğlu explores the relationship between nature and memory through painting. Working with oil and acrylic paint, alongside collage and assemblage, she creates intuitive, layered surfaces through color, texture, and material. Inspired by nature, her practice transforms landscapes into expressions of rhythm, atmosphere, and emotion rather than direct representations. Each work evolves through an instinctive process, preserving traces of time, movement, and perception while offering an ever-changing visual experience. Rather than depicting nature as it appears, Topaloğlu reinterprets it through the lens of personal memory, intuition, and emotional experience. Her paintings invite viewers into an open space for reflection, encouraging them to connect through their own memories and imagination.

DİLERA TOPALOĞLU

Dilera Topaloğlu, resimlerinde doğa ile hafıza arasındaki ilişkiyi araştırır. Yağlı boya, akrilik, kolaj ve asamblaj tekniklerini bir araya getirerek, renk, katman ve malzemeyle sezgisel yüzeyler oluşturur. Doğadan beslenen üretim pratiği, manzarayı betimlemekten çok onu ritim, atmosfer ve duyguya dönüştürür. Her çalışma içgüdüsel bir süreç içinde gelişir; zamanın, hareketin ve algının izlerini taşırken, katmanlar arasında sürekli değişen bir görsel deneyim sunar. Sanatçı, doğayı olduğu gibi aktarmak yerine, onu kişisel belleğin, sezginin ve duygusal deneyimin süzgecinden geçirerek yeniden kurar. Böylece eserleri, izleyiciyi kendi hafızası ve hayal gücüyle ilişki kurabileceği açık bir yorum alanına davet eder.
